

Clean Foundation is an independent, non-governmental environmental charity that began in 1988.

Clean Learn at Home – A Windy Workout (Grade P-6)

Find this activity and more at: www.clean.ns.ca/learn-at-home

True or False? Answers:

1. Windy Wendy uses the flow of water to make energy.

Answer: False

A wind turbine uses the wind to make energy.

2. Fossil Fuels are the same thing as non-renewables.

Answer: True

Non-renewable energy means that once we have used it, it can never be used again, and it will eventually run out.

3. Windy Wendy has two good friends, Solar Panel Sam and Hydro Power Henry.

Answer: True

Renewable energy can come from not only the wind but from the sun and the flow of water as well. The wind keeps blowing, the sun keeps shining and the water keeps flowing!

4. Burning Fossil Fuels is good for our air.

Answer: False

Burning fossil Fuels (or non-renewables) creates air and water pollution that is not good for our bodies or nature and the critters that call the outdoors home.

5. Eddie likes cupcakes.

Answer: True

Eddie does like cupcakes, and he also likes teasing Kari at the gym!
